Wexford Labs Inc	Wex-Cide 128	34810-31	Phenolic	Dilutable - 1:128 dilution	✓ No Effect	✗ Severe Effect	✗ Severe Effect

KEY	DEFINITION
NO EFFECT ✓	NO CHANGE IN COLOR OR SURFACE FINISH
SLIGHT EFFECT ✓	A CHANGE IN COLOR OR SURFACE FINISH ONLY VISIBLE AT CERTAIN ANGLES
MODERATE EFFECT ✓	A CHANGE IN COLOR OR SURFACE FINISH VISIBLE FROM ALL ANGLES AND DIRECTIONS, BUT DOES NOT APPRECIABLY ALTER THE ORIGINAL CONDITION OF THE MATERIAL. WE DO NOT RECOMMEND UTILIZATION.
SEVERE EFFECT ✗	A CHANGE IN COLOR OR SURFACE FINISH, WHICH OBVIOUSLY AND MARKEDLY ALTERS THE ORIGINAL CONDITION OF THE SPECIMEN. WE DO NOT RECOMMEND UTILIZATION.

The results for the cleaners/disinfectants listed does not imply a “warranty” or that the results are guaranteed.

These evaluations are indicators after laboratory testing and may not be indicative of field performance. Customers should first determine if products are appropriate for use on hard environmental surfaces such as ceramic, porcelain, laminate, steel, etc. After application of disinfectants on seating surfaces, these surfaces must be wiped with clean water and dried with a clean towel to ensure removal of any chemical residue that could eventually discolor or degrade the material surface.

Failure to follow the above dilution recommendations (and the specific directions of the cleaner/disinfectant provided) can expedite product failure. Further, failure to apply a clean water rinse after each application (ensuring the recommended contact time is followed) can also expedite product failure. It is imperative users follow the recommended instructions included with the cleaner or disinfectant utilized as well as those specified herein.
